The Child Immigrant

A group of pretty children aboard a C.P.R. Liner on the way to Canada.

The flow of child immigrants into Canada has started again, after its complete cessation during the war. The recent arrival at Quebec, on a C. P. R. steamer, of several hundred boys from the Barnardo Homes of London, draws attention anew to this important and desirable stream of juvenile immigration.

Few realize that a total of 75,000 child immigrants have entered the Dominion since the first shipload came years ago. It steadily grew in volume until two thousand a year entered the country, the number reaching high water mark in one year with 4,266.

Who are these Child Immigrants? They come from eleven British institutions of a philanthropic character such as the Barnardo, the Quarrier, the Macfarlane and the National Children's Homes, in which as orphans or semi-orphans, they are rescued, cared for and trained for their adult life. Only the best—physically, mentally and morally—are sent to Canada and then only after as thorough preparation as can be given to young boys and girls. The fact that seventy-five per cent of those who come to Canada follow agricultural pursuits and that over ninety per cent of the total arrivals make good in their new home, makes them a highly desirable addition to the population. They are not only under close supervision in these Old Country Homes, but the selected parties for overseas are accompanied by trained workers. On landing, they are first taken to one of the score or more Receiving and Distributing Homes, to be found in the chief cities. This means that the placing of the child immigrants in foster homes is conducted with

M.D. of Golden Center

The 12th meeting of Council of M.D. of Golden Center was held on Wednesday, Nov. 2.

Members all present. Minutes read and confirmed. The regular order of meeting was suspended to discuss road work.

Road foreman of Ward 3 was instructed to let contract for removal of rock from Creek at 15-30-6, and grade slough west of 35 29-6.

It was decided to pay cash for road work done in excess of Municipal taxes, after balance of taxes and seed grains liens are paid.

Coun. Stewart was instructed to determine roadway between sections 1, 2 and 11, 12, 31-6.

E. Anderson agreed to put in gates at S.W. 7-29-4, as soon as road is impassable from snow.

Dept. of Public Works was requested to send surveyor to determine work required.

Coun. Fulton was appointed to take charge of approach to bridge at 18 30-5.

It was decided to continue road work in excess of grant, to extent of outstanding municipal taxes. Chas. Walsh was appointed road foreman in Ward 3.

Dept. of Municipal Affairs was requested to advise us in connection with unoccupied land owned by Soldier Settlement Board, which they claim is non-assessable.

Financial statement to date was read and accepted.

The following accounts were paid: Stamps \$30.00, Dest. of weed on N.E. 36 31-5 7.00, S.W. 26-29-4. 20.00, S.E. 23-29-4. 8.00 N 22-29-4 24.00, S.W. 6-30-5 8.00, Grader plow share 10.30, M.D. membership fee 15.00, F. Davidson fee and mileage and road inspection 25.00, Lumber and cement 17.65, Envelopes, tax notices and Adv. 38.75, Bolts, etc 3.80, accounts for professional services under instructions of Council 199.65, Distress Forms 170, six Affidavits 1.25, Weed Inspection 63.00, advances to School Districts: Glenalva \$200 Longdale 200.00, Wildflower 250.00, Lawndale 300.00, and Riddellvale 300.00.

Council adjourned till Wednesday, Dec. 7th.

Chinook District Literary Society

The bi-monthly meeting under the auspices of the U.F.A. and U.F.W.A. will be held in the School on Friday, Nov. 18, at 8 o'clock. Program of instrumental and vocal music; drills, step dances and readings. Don't miss the big debate! Resolved that crop failures in Canada have been productive of more good than harm. Affirmative: Messrs Cruickshank and Noble. Negative: Messrs. Dunn and Marcy.

Mrs. Ed. Veitch, who has been visiting with Mrs. R. W. Wright, left recently to join her husband at Regina.

Personalities

M. J. Hewitt, who has been visiting in Calgary and Edmonton returned home last Saturday.

Friends of Miss Lund will be sorry to hear of the death of her mother. Miss Lund received a wire telling of her mother's serious illness, and although she left for her home immediately she was unable to reach her destination before her mother had passed away.

Mr. and Mrs. J. W. Lawrence left this morning for Nelson, B.C. where they will spend the winter.

Mr. Arthur Caldwell has returned to Calgary for the winter.

Mr. M. L. Chapman has been confined to his home this week with a sprained ankle.

The chicken supper served in the Church last week was a success even beyond the expectations of those in charge. The liberality of contributors resulted in abundance of the staples and a great variety of tempting delicacies for the supper. The Ladies Aid takes this opportunity of thanking all those who, by their contributions, helped to make the occasion a success.

The annual meeting of the Chinook and District Agricultural Society is called for Saturday, Dec. 3, at 2 p.m. in the School.

Mrs. J. R. Miller was a visitor in Calgary this week.

The teachers of the Chinook school and the officers and teachers of the Sunday school have decided to join forces in the preparation of a Christmas entertainment. Committees were chosen to look after the program, the supper, the decorations and the finance. As this is to be the greatest time of the year for all the children of the town and surrounding community, it is hoped that everyone will be willing to assist the various committee in their work.

Jas. Rennie made a business trip to Calgary yesterday.

Mr. Wm. Vennard met with a bad accident last week, when he fell off a loaded wagon. He was carried into his home and put to bed where he has remained ever since.

Messrs. Neil McClean and H. Bradford are putting a fence around the new skating rink.

Mrs. J. M. Montgomery, who has been visiting in Calgary, returned last Thursday.

Mr. C. L. Hogle, of Cereal, was a Chinook visitor yesterday.

Hon. V. W. Smith, minister of railways in the Alberta government, has disposed of his herd of pure bred "Fairfax" Hereford cattle for \$25,000 to the Kleikum Ranch Co., of Sexmith, Alta. There are 150 head in the herd.

Canada exported 515,000 head of cattle last year.

Saving \$1,000

Through trifling economies, you can accumulate one thousand dollars in a few years.

By persistently and regularly depositing \$2.00 a week with us—with interest at 3%, compounded semi-annually—you will have \$1,211.43 at your credit in ten years.

Canada's "Unknown Soldier"

Proud of the wonderful endurance, bravery and achievements of their soldiers, and rejoicing in the great victory of righteousness and liberty which they, by their heroic self-sacrifice, won for the world, the people of all the Allied countries in the Great War were anxious, not merely to do honor to their glorious dead, but to erect Memorials which would for all time create a lasting impression on the minds of future generations and remain a permanent influence, a national tradition of the highest patriotism.

Many were the suggestions advanced as to the form of such a National Memorial, and noble in conception as many of these suggestions were, the one conceived and carried out by the British Government of bringing the mortal remains of one of the many thousands of unidentified British soldiers home to England and interring the body with all the solemn grandeur and impressive services usually reserved for sovereigns and great statesmen in the historic Westminster Abbey, was admittedly the finest.

Here lies Britain's "Unknown Soldier" surrounded by kings and queens, the Empire's greatest statesmen, admirals and generals, authors, poets and painters, and of all the shrines to be visited with reverence and awe throughout the centuries to come, none will command greater attention and respect than this tomb of an "Unknown Soldier" who gave his life in the Great War in order that liberty should not perish in the world, and that millions as yet unborn should not be called upon to pass through the horrors and sufferings of war.

This "Unknown Soldier" rests in peace in Westminster Abbey, and at his tomb flowers are laid and reverence given, as the representative of all the hundreds of thousands of British soldiers, the private in the ranks, through whose steadfastness and self-sacrifice the Empire lives today and its citizens enjoy the blessings of freedom and personal liberty. Britain's "Unknown Soldier" is representative of that spirit which built the Empire and made it what it is today. But he is representative of something even greater, finer and nobler, namely, that which is the expression of the greatest of all love, the laying down of one's life for another.

So universal has the acceptance been that the British conception of paying honor and tribute to an "Unknown Soldier" constitutes the finest of all Memorials, that it has been followed in France, Italy and the United States. It has now been suggested that Canada should do likewise, and that the remains of some one of the many Canadian soldiers lying unidentified in graves in France and Flanders should be brought to Canada in all honor on a Canadian warship and buried with fitting ceremonies, and in a fitting tomb, in the capital city of the Dominion.

There should be no hesitation in acting upon the suggestion. In no part of the world did the manhood of any country respond more quickly and splendidly to the call to service than in Canada. The youth of this Dominion did not stop to count the cost, but willingly offered their all in defence of home and country and for the maintenance of national honor and the continuance of human liberty. Canada gave over 600,000 soldiers to the armies of the Empire, and one out of every ten lies in a grave across the seas. We cannot bring them all back, but as Lieutenant-Governor Newlands of Saskatchewan says in endorsing the suggestion, we can, and should, bring a representative.

Canadians from coast to coast desire to pay all tribute to the memory of their heroic dead. That tribute should be paid, not only by the present generation, but by Canadians throughout the centuries to come. In the Great War Canada found a national consciousness it had not previously possessed. This Dominion is bigger and better because of the trials through which its people passed and the sacrifices its soldiers made. In year to come the period of the Great War will be recognized as the turning point in Canadian history, and the deeds of valor of Canada's soldiers as the light which spread a new illumination over the pages of our history and inspired a new enthusiasm and gave birth to a truly national spirit in Canada.

Generations yet unborn will recognize these truths to a far greater degree than we do today. Standing at the tomb of Canada's "Unknown Soldier" in Canada's capital city, future Canadians will pay homage to the sturdy sons of the Dominion who in the years of the Great War proved themselves worthy of their country and their race.

Everything that can be done to keep alive and intensify the pride of Canadians in their country and in the achievements of their fellow citizens should be done in the interests of Canada. Everything that can be done to show lasting honor to Canada's heroic soldiers will, even so, be small in comparison to what those soldiers did for Canada and the honor they brought to this country.

Canada should follow in the footsteps of Great Britain, France, Italy and the United States by preparing a magnificent national Memorial to her soldiers in the tomb of an "Unknown Canadian Soldier" at Ottawa.

Find Valuable Ore

Official confirmation has been received of the report that deposits of valuable iron ore have been discovered on the shores of Lake Athabasca. Samples of iron ore have been brought down to Edmonton and mineral experts have declared them to be of good quality.

Minard's Liniment for Gargot in Cows

New Air Liner For Ocean Traffic

Giant Passenger Monoplane Being Built in England for London-New York Service

A mammoth air liner for service between London and New York is under construction by one of the biggest British aircraft manufacturers. If it fulfils expectations of the designers, the machine will enable 150 passengers to start from the Croydon aerodrome, near London, at midday, and alight at New York harbor the following morning, travelling at 130 miles an hour.

Everything about the giant ship will be novel. It will be a monoplane with a 400-foot span of high lift wing of great thickness, inside of which will be the passenger accommodation. There will be a restaurant in the body which will be designed along the lines of a boat, and it will carry a landing carriage which will make it amphibious. The first machine, it is calculated, will cost £150,000, but it is expected that it will be possible to turn out succeeding models at half that price.

The speed of this new trans-Atlantic liner will be far greater than that developed by the R-24, which twice crossed the Atlantic in 1915, a total distance of 6,320 miles. The night from England to America occupied fifty-six hours and there were four stop-overs. The full speed of this aircraft was sixty miles an hour. In 1917 the German dirigible, L-29, flew from Jamboli, Bulgaria, to East Africa and return, a distance of 6,768 kilometres.

Krupp's Works On

Peace Time Basis

Total Number of Employees Is Ninety-Nine Thousand

Krupp's work have now been wholly put on a peace time basis, and the result is as impressive as ever.

Besides the great works at Essen, the concern owns many other factories, employing a total of officials and workers of 99,000 at the beginning of last June. The greatest number ever employed at Krupp's was during 1918, when there were 121,000 on the pay roll, but the present total compares with \$1,000 at the outbreak of the war. The increase is due in part to the introduction of an eight hours day in place of the pre-war ten hours day.

Products obtainable from Krupp's comprise ships, steel mountings, agricultural machines, office filting, motor lorries, kino apparatus, etc. In fact, everything into which a piece of iron or steel can possibly enter.

Since the collapse of its armament work the principal new trade undertaken is the construction of locomotives and railways rolling stock. This department is still in course of development already, with a staff of 5,000 men, it can give a yearly output of 300 heavy locomotives, with tenders, and 2,500 flat-ton trucks.

GLAD HE TRIED THE TONIC TREATMENT

Through Its Use Strength and Vigor Was Restored

To be tired after exertion is natural. Rest and food restore the body to normal after such fatigue. But to be tired all the time is a symptom of an anemic condition that will not be corrected until the blood is built up.

Such an anemic condition is so gradual in its approach and generally so lacking in acute pain that it is often difficult to persuade the sufferer to do anything for it. But it is a condition that corrects itself. If the blood is not enriched the trouble will increase. The nerves will be undermined and neurasthenia, pain will follow. Digestive disturbances often result from thin blood, sleep is disturbed and a general breakdown may occur.

Mr. Wilson Johnson, Nereh, N.S., says: "A few years ago my system was in a badly rundown condition. My nerves seemed always on edge, and I found myself so weak that I could hardly do any work. I suffered from headaches and from pains in the back and under the shoulders, and was often so drowsy at night that when morning came I felt as tired as when I went to bed. I was taking medicine all the time, but was doing me no good. Then I read the testimonial of a man whose condition had been similar to mine, and who strongly recommended Dr. Williams' Pink Pills. I decided to give this medicine a fair trial, and when I had taken six boxes I felt much better. I continued taking the pills until I had taken six more boxes, and I can only say I feel like a new man now enjoying the best of health, and I advise all men who feel run down to give these pills a good trial. Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

America Has Premier Huntress
America's premier huntress is Mrs. Frederick Dalziel, who has recently returned from a big game shooting expedition in East Africa with a caravan of trophies of her prowess—the tusks of elephants and rhinoceroses, the skins of seven lions, the horns of buffaloes, a leopard and cheetah.

BENJAMIN H. KAUFFMAN,
Reading, Pa.

"There's no doubt in my mind that Tanning saved my wife's life," was the positive statement of Benjamin H. Kauffman, 505 Bingham St., Reading, Pa., popular clothing salesman for the well-known firm of Croft & Keck.

"I was almost desperate from worrying over her condition, as she had suffered so long without getting relief and I can hardly believe my own eyes now when I see the change in her. Why, she doesn't show her age by (twenty years) and declares she never remembers feeling better in her life. Her health was falling steadily for years as a result of catarrh of the stomach, and I have never seen anybody suffer as much from indigestion and nervousness as she did."

"After a five weeks' course of Tanning was like another person, and I'm firmly convinced that years have been added to her life. It makes me shudder now when I think what the result might have been if she hadn't taken Tanning in time."

Tanning is sold by leading druggists and general merchants everywhere.

Community Life Popular

New Settlements in B.C. Enjoy Pleasures of Social Intercourse

Community life, with the conveniences and pleasures of greater human intercourse, are popular in the ranching and farming districts of British Columbia, and some sixty new communities have come into existence in the past year, bringing the total number up to 2,209. The new settlements are largely created by the occupation of new lands by soldier settlers.

The Sunny Side

A man once planned two rose trees, one on either side of his house. The trees were equally strong and healthy, but after a time the one grew and prospered, the other withered and died. Then the man discovered that the living one was on the sunny side of the house. Live on the sunny side of the street! Don't sulk!

Enormous stocks of untreated have accumulated in Scotland, because the working classes are giving up eating porridge, say the dealers.

Externally or Internally, it is Good.
When applied externally by rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue, soothing the heat of the inflammation and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

Best Show of Saskatchewan Sheep

"The best sheep show ever held in Saskatchewan in which exhibits were confined to Saskatchewan," was the comment of J. G. Robertson, livestock commissioner, at the first of a series of winter fairs, which concluded with a sale of exhibits at Saskatoon. Two hundred spectators attended the show, but bidding was slow with few buyers.

His Grievance

"Ma, teacher's awful mean." "Hush, my son, you mustn't say that." "Well, she is! She asked for my knife to sharpen my pencil to give me a bad mark."

Hardens Money Metal

A process has been discovered for hardening money metal, which resists most acids, so that it can be used in the manufacture of tools that require sharpened edges.

ment for Eczema and other skin diseases. It relieves at once and gradually breaks the skin. Sample box free. Dr. Chase's Ointment free if you mention this paper and send stamp for postage. Dr. Chase's all dealers or Edmundson, Bates & Co., Limited, Toronto.

"YOUR TEETH"

HEAD INFECTION

By RIA PROCTOR McGEHE,
D.D.S., M.D., Editor of "Oral Hygiene"

The great majority of bodily infections are due to abscesses in some part of the head, usually in the mouth, throat, nose or in the little cavities that are located in a chain from the base of the nose backward to the under surface of the skull.

These cavities are called sinuses. Whenever there is an abscess that causes absorption of the poisonous material into the blood stream, it is called a focus—a focus of infection.

The reason so much attention is given to mouth infections is not because they are worse than any other infections, but because there are so many opportunities for infection in the mouth.

There are twenty temporary teeth which, in the normal course of life, are followed by thirty-two permanent teeth. Consequently, every one of us has the possibility of fifty-two sources of infection in the mouth alone, unless the teeth, both temporary and permanent, are properly cared for.

Every infection shortens life either very slightly or very considerably. In order to keep a clean blood stream, points of infection must be removed, but how much better it is, and how much more sensible it is, to avoid these infections.

So far as the mouth is concerned, infection can almost always be avoided by proper care, in time.

The best time to begin preserving your health for the future is now. Just think of the wonderful opportunities ahead of us in this country. Only those who have health and energy can have the success of which they are capable. This is the enemy of success.

Turkey to Borrow From France

After an exchange of ratifications of the treaty between France and the Turkish Nationalists, the National Assembly has authorized the finance minister to contract a loan of ten million Turkish pounds. (A Turkish pound normally is worth about \$4.25). The proceeds of the loan will be used to meet the requirements of the army.

Well Worn Trying. Sufferers from Asthma who have tried many forms of treatment without beneficial results should not succumb to despair. They should with one procure a package of the genuine Dr. J. D. Kellogg's Asthma Remedy. The remarkable record established by this standard remedy is convincing proof of its extraordinary merit in the treatment of this agonizing ailment. Asthma's many victims try one of Dr. Kellogg's without delay.

Want Hospital Act Amended

Joseph Needham, of Unity, Sask., was elected president of the Saskatchewan Hospitals Association at the annual convention held in Regina recently. Before the close a deputation visited the Provincial Government with the request for amendments to the Hospital Act.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

Calling a Man a Liar

Calling a man a liar is the last word in wasted talk. If he is a liar he already knows it and he is springing old stuff on him. If he isn't one, you are and he has found you out.—Cynical Democrat.

The warmth found in a covering of wool or snow is due to the same reason—the holding of air in the interstices of both.

Use Every Effort To Attain World's Desire States Hon. Balfour

Washington.—Delegates of the British Empire approach the armament and Far Eastern conference "in a spirit of confidence and high resolve," the acting head of the British delegation, Hon. Arthur J. Balfour, declared upon his arrival at Washington. "It is more than four years," Mr. Balfour said, "since I left this well-remembered scene and said farewell to many friends at Washington. It was a most critical stage in the great war, and notwithstanding that there was nothing more to be feared from the enemy's battleships, the submarine campaign, though its intensity had somewhat diminished, was still most formidable. In the west and in the east the victory lay hand in glove in the balance. America, from the Atlantic to the Pacific, animated by a single spirit, was concentrating her vast resources and preparing to throw her whole strength into the world struggle. We all know the result. It came more completely and more quickly than most of us had dared to hope; and exactly three years ago the greatest of victories concluded the greatest of wars. "A little thought, when I took leave of those from whom I had received such endless kindness, that I should again be called upon to revisit you, as the representative of Great Britain; still less did I think that three years after the armistice was signed, our whole thoughts would still be directed towards completing the work of peace. But so it is. Nothing could less resemble the work that had to be done in 1917 than the work in which we are all concerned in 1921. Yet they are not only intimately connected, but they form a part of the same international endeavor and he would be a rash prophet who would say that the victories of peace are easier to attain than the victories of war. But surely we may approach these new labors in a spirit of confidence and high hope. We must not indeed either ask for or expect the impossible, although what is within our reach is worth our utmost efforts. And I cannot doubt that under the wise guidance of your president we shall be fortunate enough to attain it. Most happy was the inspiration which moved him to summon this conference, for it was he who had all those who are going to meet here in counsel, and the governments which they represent, are resolved to the best of their ability to co-operate with him in making it a success. This is the world's desire; it will not fall of achievement."

Cocaine Smugglers Arrested

Drug Intended For Sale to Allied Troops on Rhine
Geneva.—Nine men were arrested at St. Louis, near Basle, a few days ago and accused of smuggling thousands of pounds of cocaine, worth \$15,000 into the occupied Rhine territory. The drug was intended for sale among the Allied troops by beautiful women, mostly dominatrices, at an enormous profit.

The band of smugglers is large, and further arrests are expected.

Explosion Causes Fire
Shawnee, Okla.—An explosion at the Chicago, Rock Island and Pacific Railroad shops, spread flames over the entire structure. The entire fire department responded to the alarm. The shops here are the second largest of the Rock Island system.

Portland, Ore.—James McCleave, Victoria, B.C., took first prize in the lightweight hunter class with Vitality, and Walter Spore, Jr., of Edmonton, was second in the same class with Domino, at Portland's annual horse show.

Railway Board Will Defer Decision On Grain Freight Rates

Winnipeg.—No decision will be rendered in the application for permission to allow the Canadian Pacific Railway Company the right to enter the Drumheller coal field over the line of the Canadian National Railway, until a public hearing has been held at Ottawa. It was announced by the board of railway commissioners.

Declaring that the basic industry of Western Canada—agriculture—was faced with absolute prostitution; that farmers were leaving the country for the cities; and that grain traffic of the

Lloyd George May Yet Attend Conference

Washington.—Mr. Lloyd George, in a personal message delivered at the state department by Ambassador Geddes, expressed regret at his inability to attend the opening session of the conference and declared that nothing but the intensely delicate state of the Irish negotiations and matters relating to unemployment legislation in parliament precluded his attendance. He stated that he hoped to be present before the conference reached the deciding stage of its momentous work.

Fire Destroys Ontario Homes

Only Two Members of Family at Kearney Escape
North Bay, Ont.—Five persons dead, and one still badly burned, was the total reached in the casualties of a fire which destroyed three houses at Kearney, Ont.

The dead were: Mrs. Wheeler, her baby girl, Doris, aged three months; Doris, aged about three years; Roy Wheeler, aged about six, and Sophie, 17, who died from burns. Another child, Mildred, is in a critical condition. The only members of the family to escape were William, aged 23, and Freddie, aged nine, who jumped from a window at the rear of the house. William made a brave attempt to rescue his mother from a front room but she failed to answer to his calls. She was dead.

The tragedy occurred during the absence of Mr. Wheeler, who had left for North Bay, a distance of about 25 miles, on an early train. He was informed of the fate of his family by a telegram which was handed to him at the station here and sobbing pitifully he sought the nearest telephone. The meagre information available as yet does not account for the origin of the fire.

Returns From Perilous Journey

Small Motor Boat Made Journey to Siberian Coast
Vancouver.—The little motor ship, Casco, captained by O. L. Lee, under charter to the Hudson's Bay Company, has returned from an adventurous journey to the North Siberian coast. The Casco left here early in June and visited a number of ports in the Behring and Siberian Seas. At Petropavlovsk, while repairing gas tanks on a launch alongside, two of the Casco's crew were killed in an explosion. They were G. A. Chicas and J. O. Overhill, engineers, Sydney Bury, of Vancouver, sustained severe burns when he tried to rescue Chicas at the risk of his life.

Ten Killed In Portugal Train Wreck

Rails Placed Across Track Were Cause of Fatality
Lisbon.—Ten persons are reported to have been killed and eight injured, when a passenger train from the province of Alentejo bound for Lisbon, was wrecked by rails placed across the track. Many of the killed and wounded were women and children.

Railway workers have issued a manifesto declaring that they had no part in the wrecking of the train.

Patronize your local merchant and thereby help to build up your home town and community.

At the conclusion the board announced decision would be withheld pending a further hearing to be held shortly in Ottawa.

Threatened Strike of Chinese Police

Trouble Brewing Over Non-Payment of October Salaries
Peking.—Lawbreakers have a pleasant outlook if the threatened strike of judicial officials and police materialize. The judges of the various lower and higher courts have addressed a petition to the cabinet for their salaries, which are in arrears, threatening to cease work if they are not paid. The police have not received their salaries for October, and they also are threatening to strike. They ask a \$200,000 reserve fund to assure them of full rice bowls.

Britain Will Pay Interest to U.S.

Arrangement Has Been Made to Pay \$50,000,000 Yearly
London.—An arrangement has been made to begin paying the interest on the debt owned by Great Britain to the United States at the rate of \$50,000,000 yearly, it was announced in the House of Commons by Sir Robert Horne, chancellor of the exchequer.

Sir Robert made this announcement in the course of a statement on the budget prospects. He added with emphasis: "I hope this remark about the debt we owe the United States will not be made the occasion for any discussion of the inter-allied indebtedness. It does not conduce to the friendliness of the feeling between the United States and ourselves to discuss that matter at all at present."

Increase in Manitoba Population

1921 Census Shows Province Is Growing Rapidly

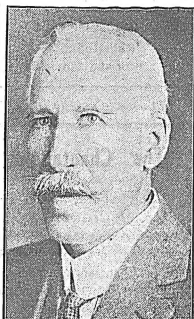

Ottawa.—The result of the 1921 census shows that the population of the province of Manitoba increased from 361,150 in 1911 to 613,008, an increase of 42.92 per cent. The population of Winnipeg increased from 136,035 in 1911 to 178,364 in 1921, an increase of 42.92 per cent. The city of St. Boniface increased from 7,453 in 1911 to 12,816 in 1921, an increase of 71.29 per cent. A recent bulletin from the census department gave St. Boniface a population of 13,816. This, it was explained, was due to a typographical error.

The city of Brandon increased from 13,339 in 1911 to 15,359 in 1921, an increase of 15.09 per cent. Portage La Prairie increased from 5,892 in 1911 to 6,718 in 1921, an increase of 14.00 per cent.

New Shippers to Trail Smelter
Nelson, B.C.—Six new shippers, all from the Slokan, sent ore to the Trail smelter during the first week in November. The week was also notable for having one of the heaviest tonnage of the year, 11,327 tons of ore and concentrates being received. The total receipts for the year to date at Trail stand at 248,593 tons.

U.S. Food Prices Decrease
Washington.—Retail food prices decreased between Sept. 15 and Oct. 15 in nine of the eleven principal U.S. cities from which reports were received. Among cities reporting decreases were Detroit 2 per cent, and Minneapolis a decrease of two-fifths of one per cent.

Japan Facing Deficit

Situation Will Make the Strictest Economy Necessary
Tokyo.—Japan faces a deficit of 30,000,000 yen for the present fiscal year, the cabinet was told by Baron Takahashi, minister of finance. He added that current revenues indicated the figure might be even greater. Commenting on his statement, the Yomiuri Shimbun says:

"The situation renders strict economy in framing the new budget absolutely necessary. The finance department thus will have to resort to the broadest policy of retrenchment in examining the draft estimated presented by each government department."

U.S. Loan Declined

Victoria Can Raise Funds in London

London.—A Melbourne dispatch to the Exchange Telegraph Company reports W. M. McPherson, treasurer of Victoria, as announcing that he had declined "a tempting offer of a United States loan to Victoria." The declaration, he said, was because of the fact that he had completed negotiations in London for a loan to be available when the government here desired to raise funds through this means.

Auto Runs Into Water

Four Men Have Narrow Escape Through Driver's Error
Prince Rupert, B.C.—Four men narrowly escaped drowning when a closed automobile in which they were riding plunged over a wharf here and sank in the harbor. The men were trying to start a new car, and the driver threw it into "high" when he meant to apply the brakes. They had to fight their way out of the closed car while under water.

Report Anti-Bolshevik Revolt
London.—Cecil Harmsworth, under-secretary for foreign affairs, replying to a question in the House of Commons, stated the government had received a report that an anti-Bolshevik revolution had broken out in the southern part of Russia. He said no information had been received regarding a report that General Petljura, Ukrainian leader, was engineering the revolution from Rumania.

World Is Settling Down To Work, Says Lloyd George

Development of Empire's Resources

London.—The necessity for more rapid development of the Empire's resources with a view to finding openings for the millions of surplus British population and new markets for British goods, was emphasized by a deputation representing the empire development parliament committee which waited on Winston Churchill, secretary of state for the colonies.

Great Britain Objects to French Priority

Agreement Regarding Reparations Injurious to British Interests

Washington.—Objections have been made by the British Government to the Loucheur-Rathenau agreement under which Germany would pay a considerable part of reparations in kind, that is in building materials and machinery, for the reconstruction of the northern departments of France.

The protest, which has been forwarded to Premier Briand by cable from Paris represents that the agreement gives France a priority in payment over other allies and is thus injurious to British interests.

Comment among members of the French delegation to the armament conference is that it was really upon the suggestion of British statesmen that the French Government authorized M. Loucheur to negotiate with M. Rathenau.

The London point of view was that Germany could never pay more than a percentage of reparations in cash and that France ought to take products in part payment.

Shorn of Splendor

Lord Mayor's Show in London Is Curtailed With a View to Economy

London.—The historic procession of the Lord Mayor of London was shorn of much of its customary splendor with a view to economy in the face of prevailing distress. The usual banquets in connection with the election of new mayors throughout the country were abandoned in many places for the same reason.

Gets \$15,000 For Auto Injuries

Winnipeg.—For injuries received when he was struck by an automobile, Alexander T. Milne, local contractor, was awarded \$15,000 by a jury in the court of King's Bench. Mr. Milne brought suit against the Ford Motor Co. of Canada, Limited, and F. H. Campbell, local sales manager, and driver of the car, for \$30,000. The case may be taken to the court of appeal.

Waterways Plan Condemned

Montreal.—A final report strongly condemning the scheme for an ocean ship channel to the Great Lakes was presented to the local chamber of Commerce by its transportation and geographical Bay Canal committee and unanimously adopted by that body.

London.—Mr. Lloyd George, speaking at the Lord Mayor's banquet, declared that there was a better prospect of Great Britain's proposals to Ireland being heeded today and Ireland accepting the invitation to enter the British commonwealth as an equal than for years, but that the conference was still in a critical stage. Beyond this he carefully refrained from divulging the results or the possibilities of the conferences which are now being held with the Irish representatives.

In his opening remarks the Prime Minister alluded to the economic troubles afflicting the world, such as followed the Napoleonic wars. He expressed the conviction that the force of the cyclone was already spent, and followed with a recital of numerous symptoms indicating that a revival was coming, particularly the fact that "every land and slacker" that seemed to overcome labor is passing away.

"The world is settling down to work," said Mr. Lloyd George, "and it is work alone that will fill the depleted tills which will enable purchases to come to the market. The blue sky is beginning to emerge. The Washington conference, summoned by President Harding, is like a rainbow in the sky, for, without the assurance of peace, restoration of business is impossible."

"This conference comes none too soon. So far the war has not had the effect which every sane man anticipated from it. In arresting the growth of armaments. Man is the most unteachable of all animals. If you inflict punishment upon any other animal he quickly learns the lesson. But, take the case of war; it was the most terrible destruction in the history of the world. That lesson was scourged deep into the flesh of the world, and yet no sooner are we out of it than the nations spend their substance in devising and manufacturing new weapons for fresh subjects spring up everywhere to justify war. You might imagine that the one purpose and glory of national organization was human slaughter."

Dam Has Destroyed Famous Trout Pool

Waters on Nipigon River Diverted for Hydro

Port Arthur.—On Cameron Pool on the Nipigon River, one of the most famous trout fishing spots in the world which has provided trophies for homes and clubs in Canada, the U.S., Great Britain, France and other countries is no more. It ceased to be a part of the Nipigon river with the completion of a dam creating a diversion of waters for use of the hydro electric plant, which delivers power to Port Arthur. The pool has become a pond in which it is believed there are still many fine trout which will die as soon as the water becomes stagnant.

Trouble In Montenegro

Natives Rebel to Secure Independence From Serbia

London.—An insurrection has broken out in Montenegro for the purpose of securing Montenegrin independence from Serbia, according to an Exchange Telegraph dispatch from Rome which connects the insurrection with the Albanian situation.

A Montenegrin battalion, says the message, has seized the highly important strategic height of Mount Lovcen.

Vast forest fires, alleged to have been started by the Serbs, are raging in the vicinity of Podgorica.

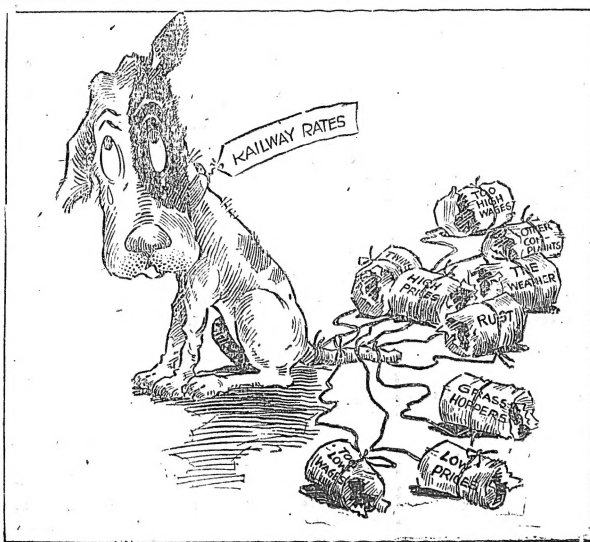

The advance of Jugo-Slav troops into Albania has been arrested by heavy counter-attacks on the part of the Albanians, according to a Central News dispatch from Rome.

Welcome For Prince

London.—The Delhi Chamber of Princes has unanimously adopted a resolution requesting the viceroy to convey to the Prince of Wales, when he lands in India, expressions of the warmest greeting on behalf of the chamber, emphasizing the attachment of the Indian princes to the imperial throne.

Selling Out Racing Stable

Winnipeg.—D. J. McDonald, well-known race horse owner of this city, is going out of the racing game and is selling his entire stable. Phil Patch, 2:05 1/2, one of the leading pacers in Canada, losing only four races this season, is among the horses to be sold.

THE UNIVERSAL SCAPE-GOAT

Explorers Will Find The Use Of Airplanes To Be Of Great Advantage

Regarding Mr. Francis Britton's proposed trip of aerial exploration of Central Australia, by which he expects to gain more information in five weeks than the best equipped ground explorer could obtain in a year, Mr. Leo Walmsley, M.C., F.R.G.S., says:—
"Mr. Britton is too optimistic. I think not. For making a rough map of a new country, for tracing the course of mountain ranges, rivers, the boundaries of desert, forest and bush, for noting the whereabouts of water and grazing grounds, aircraft manned by skilled observers are unequalled."
The average ground exploration expedition is a complicated affair. There are few countries where it is possible to employ mechanical transport for the carrying of food, camp equipment, scientific apparatus. This entails the hiring of porters, and consequently the carrying of more equipment, for porters must be fed. This also applies to animals if these are used. Porters and animals are subject to disease, which may mean months of delay.

By the very nature of their task, ground explorers must tackle great physical obstacles. Mountains must be climbed, rivers bridged, swamps negotiated, forests braved through.

A tramp a mile in breadth may delay a party for a month, the while its members are exposed to malaria. An aeroplane will cross this in a minute, and, more important still, its occupants will have a perfect view of the whole swamp, and be able to sketch its boundaries straight into the blank of their map.

In very flat, bush-land country, for weeks on end the ground explorer may never see more than a few yards ahead. Thus he may die of thirst while he has passed within rifle shot of hidden springs and streams.

The airman's view, however, is usually limited only by the curving of the earth, and the area of ground that he is able to survey in a few hours' flight is therefore enormous.

What geographical information can the airman explore obtain?

In addition to that mentioned above, a trained observer can, by noting certain associations of vegetation, distinguish the presence of water. In forests he can identify trees of considerable importance.

A "good geologist" should be able broadly to identify formations and the presence of mineral bearing strata. Good agricultural districts should be easily distinguished from the air. Game paths, native habitations are clearly seen; so are sunken sand banks and reefs in seas, rivers and lakes.

As proof of the value of the aeroplane in this connection: During the late campaign in East Africa, General Northey had planned a long march into Portuguese territory. The only map available was quite unreliable. But in three flights he was able to supply a survey of his projected route, and of two alternative routes, with detailed information regarding the density of the vegetation, depth and width of rivers with the best fords, whereabouts of water-holes and villages, extent of native-holds, and the disposition and strength of the enemy's forces.

Twenty Years Ago
Twenty years ago women were regarded as the chattels of their husbands. Twenty years ago a woman could not be a solicitor or a barrister. She could not even ride astride on a horse without exciting unfavourable comment. There has been a war since then. The disqualifications of women have been blown to pieces by the guns on the British front.—London Daily Express.

From the Dead Sea
Bitumen is gathered in Palestine from the Dead Sea, where it is found floating on the surface. Prior to the war this bitumen was gathered and turned over to a U.S. citizen, who lived in Jerusalem, who in turn, exported it by special permit. Practically the entire output was sent to Germany, where it was used in preparing the gloss of patent leather.

Wireless Sets Sold
Among the unclaimed goods auctioned off at a police sale in Toronto, were four sets of wireless apparatus confiscated by the police from foreigners in 1917, when the police were concerned in preventing the enemy from gaining knowledge that might be of material assistance.

The Laggards
Milly.—Men live faster lives than women.
Billy.—Perhaps you are right. At any rate it takes a woman much longer to reach the age of thirty than it takes a man.—New York Sun.

W. N. U. 1394

Protection For Farmers Purchasing Seed

Steps Taken to Insure Proper Standards of Purity and Quality
Good seed is a necessity for good crops and, therefore, all steps taken towards the securing of such seed are of primary importance and of untold value to the farmers. To insure proper standards of purity and quality, the Seed Control Act was passed and entrusted to the Seed Branch of the Dominion Department of Agriculture to enforce. The work entailed is of no mean proportions, as will be understood when it is stated that, in 1929, the department inspectors visited 7,725 dealers throughout the nine provinces of the country and discovered 753 violations of the act. It is a tribute to the general honesty of seed dealers that, of the 753 violations discovered, 447 were found to have been the result of accident or not from any negligence or intent. Thirty-six prosecutions were instituted, however, all of which proved warranted. Whenever suspected violations of the regulations under the act are found, the inspector secures a sample and forwards it to the nearest Dominion seed laboratory with a report covering the case. The sample having analyzed, a certificate of analysis is sent to the party concerned and, if the suspicion is confirmed, an explanation is demanded.

Another duty undertaken is the inspection of the seed grain at the inspector's terminal elevators. This inspection is made on the request of shippers, and, in 1929, certificates of purity were issued for 707,712 bushels of seed wheat, 1,105,945 bushels of seed oats and 16,353 bushels of seed barley. Other seeds were inspected, including 51,550 pounds of Timothy and 45,600 bushels of Canadian grown No. 1 flax seed principally for export to Ireland. Regarding the latter favorable comment was received from the Irish Department of Agriculture.

Finds Money In Shoe

Cobbler Making Repairs Discovers Roll of Five Thousand
Five thousand dollars brought tightly in the toes of a shoe brought him for repairs, gave Frank Seville, a cobbler, of Bayonne, N.J., the thrill of his life. Seville found in trying to place the shoe on a last that there was an obstruction in the toe, and after considerable tugging, he brought out a wad of green paper. Examination showed the wad consisted of one \$1,000 bank note and forty \$100 bills. As soon as he could leave his work he called his wife and they were considering purchase of a poultry farm when a Polish woman rushed in and claimed the money.

Farmer Loses Pedigree Sheep

Seventeen Killed Through Curious Passion for Following Each Other
Seventeen pedigree sheep, the property of J. B. Dimmock, of Mendham Priory, Norfolk, have followed each other to death. Pastured in a field where there was an old well which had been covered over, one of the sheep tried to make a meal of the leaves of a tree which hung over the well. It stepped on the coverings, which gave way, and fell into the well. With the curious passion for following each other, the remaining 16 sheep followed it, and all of them were killed.

No Change Since Abraham
The Arab, or native Syrian population, seem to have developed no fundamental change for more than 3,000 years, according to Mrs. Henry Fawcett, who has been touring in Palestine; they wear the same clothes and use the same wooden ploughs as were used by their forefathers in the days of Abraham.

Civilization Primal Bases
They are burning coal for fuel in the Western States. And in such hundreds of thousands of people are dying for lack of it. Truly transportation and distribution are the primal bases of civilization. Without them we would live—and die—like the savage tribes of Africa.—Chicago Evening Post.

Eventually
Most people will agree with President Harding that war between the United States and England is unthinkable, and eventually most people will agree that war between any two nations is unthinkable.—St. Louis Post-Dispatch.

In England many railway stations are marked with the name of the town they represent in big white letters on the roof, as a guide to airmen.

Loneliest Spot in British Empire

Captain of Pacific Liner Says It Is Falkland Islands
Where is the loneliest place in the British Empire? Captain Galloway, of the Pacific liner Carovado, who knows the world well, believes that it is the Falkland Isles. "There is not much to do there," says the captain. "There is a 9-hole golf course and one piano. The piano was put ashore by the Good Hope before she went out to meet Von Spee's squadron. There is also one cinema film, which is shown in the town hall now and then." Captain Galloway brought away the Government printer from the Falklands, who had become mentally afflicted owing to the loneliness.

By-Products From Apples

Entirely New Industry Recently Started in Nova Scotia
What may prove to be a valuable discovery has been made at Amnapolis, Nova Scotia, in a method of extracting by-products from waste and otherwise useless apples. It has been found that even the most intensely acid and usually worthless apple may be so treated by a simple process as to yield syrup which has been pronounced eminently desirable as a basis for other concoctions not hitherto so well supplied. And not only is this syrup valuable but another by-product has become evident in deposits of calcium malate, the same article as is derived from maple syrup and known as sugar sand. Before the war the Germans bought this up extensively in Quebec at about six shillings or more per pound, as a source of malic acid. The process is being treated in two evaporators, and may lead to the development of an entirely new industry in Nova Scotia.

Claims Discovery of Life Elxir

Men Over 100 in Kiev Village Eat This Food Exclusively
The elixir of long life consists of soured cows' milk, cheese made from sheep's milk and white bread, according to Dr. Sadovnik, professor of physical chemistry at the University of Kiev. He has located a village in the mountains near Temir Khan Shura, the new capital of Daghestan, where eighteen men, out of a total population of 120, are more than 100 years old. Investigation showed that they ate the above named foods exclusively.

Many persons transported here from the famine regions of Central Russia, are suffering into the bargain, where this food is to be had in abundance.

He Had a Come-Back

"You have such strange names for your towns," an Englishman remarked to one of his new American friends, according to Harper's Magazine. "Weehawken, Hoboken, Poughkeepsie and ever so many others." "I suppose they do sound queer to English ears," said the American thoughtfully. "Do you live in London all the time?" "Oh, no," said the unsuspicious Briton. "I spend a part of my time at Clipping Norton, and then I've a place at Pokeslog-on-the-Hike."

One of the latest vocations for women is that of the professional house hunter.

The brown juice of "bitternail" bark is used in some instances for staining cloth.

The home rule party in this country consists of women.

Livestock Improvement Measures

A Widespread Movement to Introduce Better Types on the Farm
More and more the movement calling for the elimination of the scrub sire in the beef and dairy breeds is being emphasized and reaching fulfillment. In addition to the educational campaigns being carried on in Ontario, Saskatchewan and elsewhere by the provincial authorities the policy of the Dominion Department in distributing pure-bred bulls in newly settled districts is doing much to improve the quality of the breeding stock. The policy was adopted in 1912, and, up to November 1, of last year, no fewer than 2,563 bulls had been introduced in this way by the Dominion Livestock Branch. At the date mentioned, the branch had in the hands of different associations in sparsely and newly settled districts 1,300 bulls, of which number 795 were Shorthorns, 217 Ayrshires, 90 Holsteins, 74 Herefords, 35 Aberdeen Angus, 25 French-Canadian, 17 Jersey, 9 Guernsey, 2 Red Polled and 1 Gallopy. Alberta is credited in the past with 313 of these bulls, Saskatchewan with 295, Manitoba with 157, British Columbia with 74, Quebec with 256, Ontario with 95, Nova Scotia with 36, New Brunswick with 55, and Prince Edward Island with 10. At first the bulls were secured by the branch direct from the breeders, but when good opportunity offers, such as a provincial sale, purchases are now made in the open market. For instance, at the seven auction sales in the prairie provinces held last year, 225 superior animals were purchased for distribution in this way.

Getting Iron From Rust

Man Achieved Greatest Triumph When Process Was Discovered
It is oxide of iron that gives to your blood its brilliant red color. If blood contained no iron, all men and women would look like walking corpses. Nowhere in nature is iron found in a "native" or pure state. It occurs only in the form of oxides—that is, as iron rust. Man's greatest triumph was achieved when he discovered how to "undo" iron rust and get the iron out of it. But for that, our civilization today would be no further advanced than that of ancient Egypt or Assyria.

Edwin E. Slosson, in his remarkable new book, "Creative Chemistry," says that every year the blast furnaces of the world release 72,000,000 tons of iron from its oxides; and every year one-fourth of that quantity reverts to rust. "Should man cease his efforts in this direction for a generation, there would be little left to show that he had ever learned to extract iron from its ores.—The Philadelphia Public Ledger.

Fifty Years With Royal Family
The death has taken place at Marlborough House of Miss Mary Adams, who, for about 50 years has been continuously engaged in the service of the Royal family. She was 77 years of age, and first joined the household staff of Princess Alice. She soon went to Buckingham Palace, spending nearly 25 years there in the employ of Queen Victoria, and about as many years in the service of Queen Alexandra, with whom she latterly occupied the post of dresser.

Look 'Em Over
Her Mother.—Are you sure you can support your family?
Her Husband.—Sure, I can.
Her Mother.—Well, you had better look 'em over, there's 12 of us.—Detroit News.

DESIRABLE CANADIANS

English children who recently came to Canada on board the "Empress of France." Their names are: Thomas Marshall Howard, Sydney Ashton, John Kincaid, Lawrence King, Edwin Coleman and Billy Coleman.

Would Bring Remains Of Nameless Hero From France To Ottawa

Dairy Business Profitable

Earl's Sister Turns Hobby Into a Paying Business
An Earl's sister who took up farming as a hobby eventually found it could be turned into a business. She developed it on thoroughly practical lines, and now it is proving a great success.
She is Lady Victoria Murray, the Earl of Drummore's sister, and the farm of 300 acres—is at Whiteley Hey, near Macclesfield, Cheshire.
Lady Victoria has a herd of 10 Shorthorn and Friesian dairy cattle, and has dispatched by motor and train some 40,000 gallons of milk during the year.
From the model poultry farm, 160,000 eggs have been shipped to markets, besides large quantities of dressed poultry.
As a result of store cattle, Lady Victoria shows excellent judgment, and is the possessor of some notable pedigree stock.

Lloyd George's Intuition

Proved Correct Many Times During the War
It was no "light-minded" man who, throughout the great war, was the inspiration of victory to his fellow countrymen—and, one might almost say, to the world. In the most crucial periods of the conflict, he constantly exhibited a spirit that never faltered, a courage that never failed. He seems never, for a moment, to have doubted of the ultimate triumph of the allied cause, and (what is perhaps more surprising) to have continually displayed, according to the testimony of those close to him at the time, a very accurate comprehension of the German mentality. Lord Milner, a member of his war cabinet, was immensely impressed with the fact that, time after time, his intuitions proved correct, when the judgment of generals in the field was at fault.—Montreal Journal of Commerce.

Do It Now

Putting Off Things Will Hinder Recovery in Business
Each of us can help to hasten recovery in business and in employment. How? Well, there is that little improvement you have long wanted to carry out around your home or your place of business; do it now. There is that purchase you have had in your mind for quite a while but have held back because the price was too high; make it now. Your long-cherished dream of building your home has heretofore not been realized because of this, that or the next reason; build it now. There is that money you have been saving in the hope of being able to invest it safely and profitably; invest it now. You have been waiting for the right opportunity to launch that more aggressive plan for developing your business; do it now. You have been feeling pessimistic for many months but find yourself half inclined to adopt a more cheerful and courageous attitude; do it now.—Porter Magazine.

Drilling in Belfast

Sinn Féin men have been drilling in the Upper Falls district of Belfast for some time past, and on Oct. 2 they had what appeared to be a field day. About 50 men assembled at the corner of Springfield road and Whitelock road and marched in military formation to Hannastown, where they were joined by other parties, and various evolutions were practised. A passerby who had the temerity to stop and watch the proceedings was assaulted by some of the rebels and ordered to go away, a command he obeyed with alacrity.

Bees Kill Team of Horses

Bees are reported to have stung to death a team of horses belonging to a farmer at Norton Grove, near Chicago. The farmer was driving the team, and while passing near one of his hives a farm hand knocked it over. The bees attacked the farmer. He made his escape and they covered the horses. They were driven off by water from a hose, but both horses died from their stings.

Giraffe Becoming Extinct

The giraffe is gradually disappearing in some parts of Africa. Where it was no common thing to see herds of eighty some years ago, it is now a rarity to see a herd of more than twenty.

Illusion Shattered

Stage Hand (to manager).—Shall I lower the curtain, sir? One of the 'lavin' stooos 'as got the 'leups!—Passing Show (London).

Discussing the action of the United States in bringing from France the body of an unknown soldier, the Halifax Herald in a leading editorial says:—"Sixty-two thousand four hundred and ninety-six Canadians lie dead in Europe; the forests of crosses that force themselves upon the vision in Flanders in Arras and Picardy testify mutually to this overwhelming sacrifice. The story of Canada's achievements is inscribed upon these wooden memorials. But it is a portion only of that story. The rest is written in the rags that adhere to the plough of the Flemish farmer, in the shattered fragments of humanly precluding through the earth, in the stained and broken relics gathered in the fields by little children, rather than in any after years serve no loftier purpose than to be exhibited to the flippant gaze of the curious."
"Why should not Canada do what has been done in Great Britain in France, in Italy and in the United States? Why should not this country endeavor to bring a gleam of hope into the barren lives of those to whom it means so much? To bring to Canada on a Canadian warship all that is mortal of some nameless hero to reinter him in Ottawa, the capital city of the country, would be an act of grace that would express all sympathetic feeling regarding these thousands of Canadians whose graves have not been and will never be identified."

Prince Will See Wrestling in Japan

Will Arrive at Time Sport is Indulged In
When the Prince of Wales arrives in Japan next spring he will, says the New York Times, be there just at the time of the year when the Japanese public is most keenly interested in wrestling and champions are made and unmade. In the sixth century wrestling actually settled the succession to the Japanese throne, as the Emperor had died leaving two sons both equally anxious to occupy the vacancy.
Wrestling in Japan is the sport of sports. Kokugai-kwan, a great hall, was erected recently in Tokyo as a monument to the art. Japanese wrestlers, however, violate every law of training laid down by western nations. They gorge themselves to the point of bursting, and the champion waist line is at least twice as great as was intended by nature.

Glass-Making in Belgium

Industry Has Made Country Famous For Many Centuries
Glass-making is one of the great national industries of Belgium. Even before the war it was a source of large wealth, and today it is playing an important part in rehabilitating the country. Belgium has been famous for its glass-making for many centuries, and at the present time holds first rank among the general exports from Belgium to all other countries. There is a scarcely a civilized nation in the world that is not more or less dependent upon Belgium for window glass, mirrors and table glass.

How to Buy a Motor Car

An interesting statement was made by Sir Robert Buckle at a meeting of the Thames Conservancy, London, England, when he remarked, "We are buying another motor car, and if we are as lucky with this one as we were with the last, we shall indeed be fortunate. We bought that car two years ago and ran it something like 10,000 miles, and then sold it for a little more than we gave for it."

Britain's Last Man in France

The last of the British troops remaining in France are expected to return to England soon. They are a party of about 100 men of the Royal Fusiliers (City of London Regiment) who have been engaged on the work of exhumation of the bodies of our soldiers in preparation for their reburial in British cemeteries abroad.

Depth of Sunken Lake Unknown

The Great Sunken Lake, in the Cascade Mountains, is the most deeply sunken lake in the world. It is fifteen miles long and four and a half wide. It is 2,000 feet down to the surface of the water, but the depth of the water is unknown.

When All People Agree

People disagree about everything except that prices of things they have to sell are too low and the prices of things they must buy are too high.—Atchison Globe.

It pays to patronize home industry. Buy from the merchants in your own town.

Fine Ripe Tomatoes & Best Spices

CLARK'S TOMATO KETCHUP

Just a dash adds zip to the stew or fish, etc. The well spiced and seasoned fine ripe tomatoes are a wholesome and tasty relish. Made from Canadian Produce and sold everywhere in Canada.

14-6-21

World Happenings Briefly Told

The Young Men's Christian Association building at Sumnerville, Mo., has been destroyed by fire. The loss was estimated at \$100,000.

Two—Hull, N.S., men returning from a hunting trip near Hubble's Lake, brought with them a 750-lb. moose.

The sum of \$21,000 is to be spent by the B.C. Government in converting the Boys' Industrial School, Point Grey, into a home for blind, deaf and dumb children.

Distinguished architects, sculptors, painters and decorators are combining to create a model doll's house for Queen Mary. It will be 8 feet high and completely furnished.

Thirty-five lives were lost in the wreck of the Ryuka Maru, a Japanese coasting steamer, which was wrecked near Kishifu, off the coast of Hokkaido, Nov. 2. The captain and the crew of 34 were drowned.

The treaty of peace between Austria and the United States became effective with the exchange of ratifications by the two governments between Austrian Chancellor Schober and Arthur Hugh Fraser, United States commissioner in Vienna.

The League of German Industrialists have voted to come to the financial aid of the government by placing at its disposal the foreign credit of the league's members which is estimated to yield one billion marks.

China's wheat crop has been so poor that brisk demand for flour is anticipated. J. W. Ross, Canadian trade commissioner to Shanghai, advises that 15 or more large flour mills throughout the country may also have to import wheat to keep them running.

Vilhjalmar Stefansson, Arctic explorer, recently reported that a party he had sent from Nome, Alaska, to Wrangel Island, about 100 miles north of Siberia, to establish a base for exploring party into the north, had arrived safely at their destination.

YOUNG WOMEN AVOID PAIN

This One Tells How She Was Benefited by Taking Lydia E. Pinkham's Vegetable Compound.

Regina, Sask., "For two years I suffered from periodic pains and nausea so I was unable to get around. My mother had me take Lydia E. Pinkham's Vegetable Compound, and I am much better and able to go about all the time, which I could not do before. I recommend Vegetable Compound to my friends. If I know they have the same way, and you may publish my letter if it will help any one, as I hope it will."—Miss Z. G. BLACKWELL, 2078 Oiler Place, Regina, Sask.

If every girl who suffers as Miss Blackwell did, or from irregular, painful periods, headache, dizziness, dragging down pains, inflammation or ulceration would only give this famous root and herb remedy a trial they would soon find relief from such suffering.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

For special advice women are asked to write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of forty years experience is at your service.

W. N. U. 1394

Seal Herd Increasing

Valuable Fur-Bearing Animals More Plentiful on the Pacific Coast

After having been reduced in numbers from 2,500,000 to less than 125,000 through unrestricted slaughter in the past, the great seal herd of the Northern Pacific has under the adequate protection afforded them by the government, again increased, until today it is estimated that there are at least 600,000 of the valuable mammals between the coast of Washington and the key shores off Alaska.

The Indians, who alone have been permitted to hunt the seals under restrictions which compelled them not to shoot them but only to spear them, expect to capture about 2,000 seals this year. The money value of the skins taken, since the closed season for sealing schooners was declared in 1917 is said to be about \$500,000.

Survey For Power

The city of Winnipeg has voted \$10,000 for a preliminary survey of a City Electric Power site at St. Charles Falls on the Winnipeg River, where it is believed 30,000 h.p. will be developed in the next few years.

Hard and soft corns both yield to Holloway's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

Laziest People on Earth

Natives of Sandwich Islands Do Not Have to Work

A traveller who visited the Sandwich Islands claims to have discovered the laziest folk on earth. He wrote that during his visit to one of the islands none of the inhabitants did any work to speak of. They smoked, chatted, laughed, played and acted in other ways more like a lot of little folks on a summer evening than the responsible heads of households. Nature gives them enough to eat without any considerable labor, and they seem contented with what they thus receive. At Honolulu and other points work is done, but altogether the people of the islands are as lazy as they are happy.

To Survey North

Dominion Government Engineers are now en route to the North West Territory to make a survey of the lands, with a view of lowering the levels of the Lesser Slave Lake.

When Overtaken by Nausea Try This Simple Remedy

When you don't know whether it's going to stay or come up, and you feel even worse, what you need is twenty drops of Nerveine, in sweetened water. Almost like magic is the change you experience. Those feelings of vomiting disappear. "Thousands of homes rely on Nerveine in case of upset stomach, gas-bloating, nausea and sour stomach conditions. Get it today, large 55c bottles sold by all dealers."

Big Exports of Wheat

Huge Quantities of Grain Handled at Port William

During October there was marketed at Port William a daily average of 1,720,485 bushels of wheat, loaded in an average of 1,102 cars daily. This shows a 35 per cent. increase over the wheat loaded for the same month last year. Since the opening of navigation on the 15th April there has been shipped from Port William and Port Arthur 126,305,495 bushels of wheat.

HALIFAX EXPLOSION WRECKED HER NERVES

The reader will, no doubt, remember when a few years ago there was a collision in the Halifax, N.S., Harbor and one of the munition ships was blown up, causing great loss of life and laying a large portion of the city in ruins, and causing a great deal of suffering and distress among the inhabitants.

Mrs. Winifred Dill, now of Windsor, N.S., was living in Halifax at that time and went through this trying experience and the shock wrecked her nerves. She writes as follows:—"I was living in Halifax at the time of the explosion, and it wrecked my nerves so that I could not do my housework. I would take such nervous spells I would be under the doctor's care."

I saw Milburn's Heart and Nerve Pills advertised, so I took two boxes, and they helped me so much I took six more, and now I am completely relieved. I can recommend them to anyone suffering from heart and nerve trouble."

To all those who suffer from nervous shock we would recommend our MILBURN'S HEART AND NERVE PILLS

as the best remedy to tone up the entire nervous system and strengthen the weakened organs. Milburn's Heart and Nerve Pills are the original heart and nerve food having been on the market for the past 27 years. Price 50c per box. They are sold by mail direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

To Make Flax Fibre

A new company has been formed in Manitoba with a paid-up capital of \$100,000 to manufacture fibre from the raw flax. At the first meeting of the company it was decided to purchase a mill at Neepawa, capable of handling straw from 2,000 acres of land.

If Headach, Bilious Or Stomach Is Bad, Take "Cascarets"

Get a 10-cent box now. Furred Tongue, Bad Colds, Indigestion, Sallow Skin and miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, everything that is sickening. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you up by morning. They work while you sleep. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little bodies need a good, gentle cleansing, too.

Russians Executed for Theft

Nineteen Men Shot For Stealing From Government Stores

Nineteen men have been shot and 40 men and women sentenced to prison terms after conviction before a Moscow court martial for thefts of diamonds, platinum and old silver and jewelry from the government stores. These stores were taken over by the Soviet from shops and individuals at the beginning of the Bolshevik regime. Chief Inspector of the state control commissariat, M. Avenyukin, who has been executed, was convicted of stealing 50 billion rubles worth of gems and precious metals.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

Needle Is Extracted From Child's Heart

Most Remarkable Operation Performed at Minneapolis Hospital

A Cæmic needle was removed from the heart of Dawson Sandles, two years old, at the Elliott Memorial Hospital at the University of Minnesota, Minneapolis, in what surgeons term the most remarkable surgical operation ever performed in the northwest. The youngster is expected to recover.

Dawson, a son of Mr. and Mrs. John H. Sandles, St. Paul, stumbled and fell while playing at his home and a needle from his mother's sewing basket penetrated his left breast. He complained of a pain in his left side and an X-ray examination revealed the needle close to the heart. Dr. A. C. Strachan, chief of the surgical staff at the hospital, decided to operate. The surgeon first opened the boy's breast and then the pericardium, where he expected to find the needle, which, however, had entered the heart. At each contraction of that organ the head of the small steel needle came into view. With a tiny forceps, Dr. Strachan extracted it, and within a short time the heart, which had been beating 120 times a minute, returned to close to normal.

To Exhibit at Chicago

The Province of Saskatchewan Agriculture Department will have a large exhibit at the Chicago International Stock Show in December.

Minard's Liniment for Colds, etc.

Zam-Buk WONDERFUL IN PILES

Mr. WILFRED MEYER, 42, Lyall Avenue, Toronto, writes: "On active service with the R.F.C. I contracted piles through sleeping on damp ground. Treatment by the M.O. brought no relief and various 'pile remedies' I tried proved equally hopeless. Shortly after my discharge from the service a friend strongly advised me to get Zam-Buk. One box of the balm brought such benefit that I determined to continue the treatment. In a few weeks Zam-Buk caused the piles to completely disappear. All other sufferers should know of this wonderful herbal healer." Use ZAM-BUK for all your Skin Troubles.

Dutch Honey Bees

A consignment of Dutch honey bees has arrived for the use of Kelowna planters. The Dutch bee is celebrated for its honey producing qualities. Application to be having an important branch of husbandry among the fruit farmers of the Okanagan Valley.

SAVED BABY'S LIFE

Mr. Alfred Trachemontagne, St. Michel des Saints, Que., writes:—"Baby's Own Tablets are an excellent medicine. They saved my baby's life. For little ones and never fail to regulate the bowels and stomach thus relieving all the minor ills from which children suffer. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

How Swiss Treat Their Unemployed

Shirking Work Is Looked On As A Disease

In Switzerland they are learning to treat men out of work as if they were suffering from a disease. It is found that a man out of work is likely to get the habit. When a man begins to dodge and avoid employment or shirk his normal tasks he is infected with the germ of sloth. He has an ailment or disease that threatens to become chronic. So the authorities step in, much as a doctor would. They diagnose the case, study the symptoms, and endeavor to place the man in some employment where his capacities can be of service to himself and his fellows. Why not vaccinate against idleness?

Brahmins Avoid Friday. Amongst the Brahmins of India no business is ever begun on a Friday.

How's This?

HALF'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh or Discharge caused by catarrh. It does not amount to it for any other disease. HALF'S CATARRH MEDICINE is a liquid, taken internally, and acts through the blood upon the mucous surface of the system, thus reducing the inflammation and restoring nature in restoring normality. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

Explorer's Important Discovery

Continuous Mountain Chain 2,000 Miles Long in Tibet

Among the greatest results achieved by the Hedin explorations in Tibet was the discovery of a continuous mountain chain, 2,000 miles long stretching east and west, and which, taken as a whole, is the most massive range on the crust of the earth. Its average height above sea level is greater than that of the Himalayas, and although its peaks are from 4,000 to 5,000 feet lower than Mount Everest, its passes average 3,000 feet higher than those of the Himalayas. The eastern and western parts of this range were known before, but the central and highest part, in Boshang, was unexplored previous to Dr. Hedin's visit. He crossed ten passes in the range.

Queer City in Ireland

The most unique city in the three kingdoms is Clifden, situated in the south of Tyronne, Ireland, an episcopal city, consisting of a single street with houses only on the one side. There is a saying in the north—"All on one side, like Clifden." The other side of the street is occupied by the wall and overhanging trees of the Macartney's demesne, which gives the place a very picturesque appearance. Further, this street has a cathedral, an episcopal palace without a resident bishop, and a denary without a dean!

Italy's perfume manufacturers annually consume 1,650 tons of orange blossoms and 1,000 tons of roses.

Minard's Liniment used by Veterinaries

Rose-Colored Crepe Brightens Navy Tricotine

By Marie Belmont

This attractive dress is an admirable one for the matron in need of a pretty model for afternoon wear. It is made of navy blue tricotine enlivened with trimmings of rose-colored crepe. The latter is used for the loose under-sleeves as well as the narrow panels that flank the front of the dress. Bands of the crepe also make effective trimming about the neck. Should the practical-minded woman consider that the rose crepe is too delicate, she might substitute a contrasting shade of blue or one of the reds that are so much to the fore this season.

Unfit to Live—Must Die

This verdict is rendered a thousand times every week—no corn can live, it must pass out, drop off, if Putnam's Extractor is applied to corns and warts. Use the old reliable "Putnam's," it never fails, 25c at all dealers.

Tender Solitude

Little Tommy Brown was much interested in his new baby sister. One day he went to the nursery, and while he stood peering down upon it, nurse was singing it to sleep. "Nurse," he whispered at last "she's nearly unconscious, isn't she?" "Yes," whispered the nurse, and continued singing the lullaby. Tommy paused for a few moments; then he said, in alarm, "Don't sing any more or you'll kill her."

Orders Issued During War Preserved. Marshals Foch, Joffre and Petain have read into gramophone records the orders issued by them during the war which have become historical and world-famous.

Marshal Foch is the only Frenchman who has been appointed a British Field Marshal.

You must say

Aspirin

Nothing Else is Aspirin—say "Bayer"

Warning. Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances?

Accept only an unbroken "Bayer" package which contains directions worked out by physicians during 21 years and proved safe by millions for Colds, Headache, Rheumatism, Toothache, Neuralgia, Rheumatism, Neuritis, Lumbago and Pain. Made in Canada.

All druggists sell Bayer Tablets of Aspirin in handy tin boxes of 12 tablets, and in bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer-Manufacture of Monocacloacetate of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

CLOVER LEAF NEWS

Mr. Jack Sybel and Miss McNeil slipped away to Youngstown last Saturday and were quietly married. Giving their friends a real surprise. A host of friends join in wishing this worthy couple all that is good and a life of true happiness.

The U.F.A. met at Clover Leaf School Saturday evening when a big crowd was present. The pupils of the school gave the program which was along the line of Thanksgiving and very much appreciated by all. After the business meeting followed by a lunch music and community singing took up the rest of the evening. The next meeting will be on Saturday, Nov. 26.

Several from this neighborhood attended the Chinook Chautauqua last week and were well satisfied with every number. The music and lectures were fine, and we shall be glad to hear that they are coming next year.

Miss E. Stevenson, graduate nurse, who has been spending a two weeks vacation at the home of her parents, Mr. and Mrs. Stevenson of Heathdale, left last week accompanied by her brother, Arthur Stevenson, for her home in Saskatoon.

Mrs. Davis has returned from a visit to Hanna, where she has been playing her part as grand

ma to the little lady who arrived at the home of her daughter, Mrs. Nina Foster.

Miss McGivney and her mother Mrs. J. Hess attended the teachers' convention at Youngstown last week.

Quite a number from this district attended the Chinook home talent play "Green Stockings." The play was fine everyone taking their part well. We hear the play is to be given in Youngstown. Giving a home talent play means lots of hard work and we are sure from the large audience that turned out to hear this play, that everyone appreciated this effort of our local talent.

The big supper given at the Chinook church on the second night of the Chautauqua was surely a success. The tables were laid with everything that goes to make up a fine supper. Nearly all the people from the country who stayed in for the evening program had supper at the church. The Ladies Aid deserve great credit for the fine supper and service given the large company who ate supper.

TENDERS WANTED

Tenders wanted for the position of caretaker of the Chinook Curling rink. Lowest or any tender not necessarily accepted. Apply to—Chas. Wylie, Sec.-Treas.

Chinook U.F.A.

A business meeting of the above Local was held last Saturday, there being a large attendance of members.

Considerable business relating to relief work was reported on by the President, and resolutions relating to same passed by the meeting.

A very lively discussion on the Sinaluta plan for the re-establishment of the Wheat Board resulted in the plan being adopted with several minor adjustments.

A small committee was appointed to take the necessary steps to find ways and means of assisting to bring the Canada Wheat Board again into operation.

Next meeting will be held in the School on Saturday, Nov. 26, at 3 o'clock.

Chinook Curlers Organize

The Chinook Curlers held their annual meeting on Monday evening, when arrangements were made and the following officers were elected for the season: President, R. R. Dunn; Vice President, Jas. Kennie; Sec.-Treas., Chas. Wylie, Executive: Messrs O. Hinds, J. M. Montgomery; S. H. Smith and L. S. Dawson.

A committee was appointed to interview the official of the Agricultural Society with regard to renting the fair building.

Dr. F. W. Gershaw
Liberal Nominee

Dr. F. W. Gershaw, of Medicine Hat, has accepted the Liberal nomination for the forthcoming federal elections. There are now three candidates in the field for this riding.

Catholic Ladies Auxiliary

The C. L. A. held at Mrs. Foster's on Friday was well attended. The date of tea, home cooking and sewing sale was fixed for Saturday, Nov. 26, at 3 o'clock in the W.I. rooms next to the Meat Market. Tea, sandwiches and cake will be served from 3 o'clock. All kinds of cooking and fancy articles will be sold. The Sateen comforter will be raffled in the evening. Have you purchased a ticket? It only costs 25c. You can get a ticket from Mesdames Hinds, De nan, Montgomery and Forest.

Members of the Auxiliary when they have their sewing donations finished please leave with Mrs. Hinds.

The meeting on Dec. 14, will be held at the home of Mrs. Ray.

U.F.W.A. Meetings

The regular meeting of the Chinook U.F.W.A. will be held in the School on the first and third Saturday afternoon of each month. All members are requested to be present. Visiting members are cordially invited to attend.

Mr. A. McAllister left to day for Saskatoon where he will spend a few days.

A Playground in Quebec

PAUGAN FALLS, IN THE GATINEAU DISTRICT

Canada bids fair to become in the near future the playground of the world! Ours is pre-eminently a country of natural resources—industrial ambitions, notwithstanding—and not the least among these are our park areas, vast tracts of land that are not suitable for agricultural operations, nor required for manufacturing purposes, nor needed for populous settlements.

Such a region is that one called "the Gatineau," 15,000 square miles of mountainous grandeur that rival the Catskills for scenery, Olympus for atmosphere, and then which there is no more alluring field for sportsmen this side of the happy hunting ground. The Gatineau district is a natural park, accessible and already half opened, with a railway and a motor road, which though far from perfect at the time of writing is used by an increasing number of tourists.

The country offers a life as strenuous as the pioneer demands, or as restful as the jaded urbanite dreams of, but devoid of obtaining. Canada is gradually awakening to the commercial value of her park areas, her playgrounds; to the fact that she has something that older countries—countries settled before she came for "national lungs" would

recognize as such. She is beginning to realize that an amazing increase in motor traffic necessitates the providing of some objective for tourist travel, and that the more attractive the objective, the greater the number of tourists. Tourists represent revenue, and a very satisfactory type of revenue, for in enjoying and benefiting by a sojourn in one of our playgrounds, they leave the scenery undiminished in grandeur, and they take away nothing that impoverishes the country. So keenly are many cities competing for this tourist traffic, that they provide camps for motorists and vie with one another in offering attractions that may induce a brief sojourn, at least, within the municipality.

The Gatineau is like a hen waiting to lay golden eggs and needing only a little bit of corn in front of her to set the machinery in operation. The corn in this case, stands for adequate accommodation. The absence of hotels has been for the lovers of the Gatineau one of its principal charms. There has been no danger from invading hordes capable of desecrating its vast solitudes with jazz band and skeleton, and building picture houses

to shut out the glory of the sky. Chelsea, Kingsmere, Farm Point, and Blue Sea Lake (where the Duke and Duchess of Devonshire elected to spend their summers), are almost as a closed Paradise to any save those who have cottages. Yet, although all of these places are undoubtedly beautiful and desirable by reason of their very exclusiveness, they do not comprise even half of the Gatineau. The vicinity of Paugan Falls can scarcely be equalled as a hotel site. Paugan is an Indian word meaning "pipe" and is descriptive of the shape of the Falls. While these may not be mentioned in the same breath with Niagara or similar glories, yet they have their own peculiar charm; the approach, the setting, the colouring of the surrounding hills, the indescribable atmosphere of romance that pervades the district. Over the Paugan, a rainbow arch spans the two shores on sunny days and when clouds threaten Old Sol with defeat, the prismatic colours fade into a shimmering mist. Below the Paugan Falls the Gatineau river grows calm and forms not only a safe lake for boating, but an ideal swimming pool, ordered as it is for a half a mile with a stretch of amber sand.—M. H.
